PART 19 - Unbundled Network Elements and Number
Portability
SECTION 1 - General

7th Revised Sheet No. 2.1
Cancels
6th Revised Sheet No. 2.1

1. GENERAL (cont'd)

A. DESCRIPTION (cont'd)

The unbundled network element services provided in this section are exclusively for use by "telecommunications carriers" for the provision of telecommunications service as defined by and to the extent required by the Act and the IL PUA. The Company will provide sufficient unbundled network element capacity to meet the requesting telecommunications carrier's network unbundling needs where sufficient capacity exists within the Company's network and is technically feasible. Where insufficient capacity exists to meet the requesting telecommunications carrier's technically feasible network unbundling needs, the telecommunications carrier may request that additional capacity be added via the "Bona Fide Request" Process or, as appropriate, may request that additional capacity be added pursuant to the Commission's Order in Docket No. 99-0593 as long as such order remains effective.

The following tariffs contain rates approved by the Illinois Commerce Commission as being compliant with the TELRIC requirements of the Telecommunications Act of 1996 and the directives of the Federal Communications Commission. Consistent with the negotiation process required by the Telecommunications Act of 1996, the tariffs are only available to carriers that enter into an interconnection agreement with SBC or those carriers that currently have an interconnection agreement with SBC, depending on the provisions contained therein.^{/1/}

If a telecommunications carrier with an interconnection agreement is permitted to purchase the UNE combinations offered under Section 20 of this tariff, that telecommunications carrier shall submit written notice to the Company if it decides to purchase from that tariff, with the notice specifying that particular tariff. Section 20 is non-severable and indivisible. Following the Company's receipt of such a written notice, such tariff (including its rates) set forth in the notice shall apply on a prospective basis only, and apply in accordance with its terms to UNE combinations already being purchased and those subsequently purchased by the telecommunications carrier, beginning 5 business days after the Company's receipt of the notice. An eligible telecommunications carrier that has previously provided notice of its decision to purchase under Section 20 of this tariff may change that direction upon subsequent written notice to the Company of that change, which notice shall be provided, and shall be subsequently and prospectively effective, in the same manner as described above. (C)

/1/ This paragraph is included, as written, per the ICC's Order dated June 9, 2004, in Ill. C.C. Docket No. 02-0864.

Original Sheet No. 3.2

1. GENERAL (cont'd)

A. DESCRIPTION (cont'd)

None of the time periods shall begin to run until all BFR-OC information required by the Company is received.

Schedule of Rates Process for Proposed Orders under 220 ILCS/5/13-801(i)

The purpose of this section is to inform telecommunications carriers of the single point of contact and the process for the Company to provide a schedule of rates that pertains to a proposed order identified for the matters covered by 220 ILCS 5/801.

Requests made under that statute to the Company should be received via fax between the hours of 7:00 a.m. Central time and 6:00 p.m. on business days at:

Fax number: 1-888-435-0134

For any request, the carrier must submit the following information, at a minimum, typed:

- Service type (UNE, Access)
- A designation that the rate schedule be based on Tariff rates or the rate schedule from the telecommunications carrier's interconnection agreement
- For UNE Requests
 - UNE loop functionality type (xDSL, 2W, 4W, Analog, Digital, etc.) (D)
 - End-User Address (D)
 - Collocation
- Ancillary Services (E911, etc.) (D)

Also include a return fax number to which the Company can send a response and any other written communications about your request, and the name and telephone number of a contact who can provide additional information and otherwise discuss the request.

A Company single point of contact and the particular manner by which such requests are made is necessary to provide the Company with a reasonable opportunity to respond within the two(2) business day objective. Failure to send a request in this manner, or if the proposed order is incomplete, unclear, or illegible, may prevent the Company from responding promptly or accurately. The date that the request is received will not be counted in calculating the response time.

(D)

(D)

Unbundled Local Transport

Company shall provision unbundled local transport in accordance with the following intervals:

- | | |
|--|-----------------|
| • DS1 Unbundled Local Transport | |
| Facilities Available completed on time | 7 Business days |
| Facilities or Force not available | Negotiated |
| • DS3-Unbundled Local Transport | Negotiated |
| • OCN-Unbundled Local Transport | Negotiated |

/1/ As more specifically described in the Application for Rehearing filed on behalf of Ameritech Illinois in Ill. C.C. No. 96-0486 on March 9, 1998, the Commission's requirement that Ameritech Illinois tariff Service Quality Standards violates both the structure of the Telecommunications Act of 1996 and the Eighth Circuit Court of Appeals decision in Iowa Utilities Board. While not waiving its right to appeal all aspects of the commission's requirement, the Company has filed the Network Elements Performance Benchmarks as the only material clearly referred to in the Commission's Analysis and Conclusion appearing at page 127 of the Order that apply to unbundled network elements.

Pursuant to Second Interim Order in Ill. C.C. Docket Nos. 96-0486/0569 Consolidated, dated February 17, 1998.

B. TERMS AND CONDITIONS (cont'd)

Branding

Telecommunications carriers may not, without the Company's written authorization offer Unbundled Network Elements under any of the brand names of the Company or any of its affiliates, nor may any telecommunications carrier state or imply that there is any joint business association or any similar arrangement with the Company in the provision of telecommunications services to the telecommunications carrier's end-users. Company may brand services under this Part with its own brand name but will not provide for telecommunications carrier branding of those services. (C)

Use of Service

Unlawful Use of Service

Service shall not be used for any purpose in violation of law. The telecommunications carrier, and not the Company, shall be responsible to ensure that telecommunications carrier and its end-users' use of the services provided hereunder complies at all times with all applicable laws. The Company may refuse to furnish service to a telecommunications carrier applicant or shall disconnect the service of a telecommunications carrier or as appropriate the telecommunications carrier's end-user when:

- An order is issued by a court, the Illinois Commerce Commission or any other duly authorized agency, finding that probable cause exists to believe that the use made or to be made of the service is prohibited by law, or
- The Company is notified in writing by a Law Enforcement Agency acting within its jurisdiction that any facility furnished by the Company is being used or will be used for the purpose of transmitting or receiving gambling information in interstate or foreign commerce in violation of law.
